

# MitreBond

## A Rapid Set Adhesive Product

MitreBond is an essential item to have in the shop or in the hands of installers on the job site. It can be used whenever a strong rapid bond is needed for small pieces of trim or as a temporary bond for larger items while a more mechanical bond is put in place. It is ideal for MDF Crown Moulding and also works on Glass, Some Plastics, Ceramics, Aluminum, and Steel.

1 Activator

2 Adhesive

3 Finished Joint

**New Product Available!**
