## ZOCCOLO IN RESINA

Il nuovo zoccolo 4600 è realizzato in materiale termoplastico autoestinguente estruso ed è dotato di una particolare guarnizione inferiore a semiscomparsa.

Disponibile in diverse altezze può essere fornito con tutti i tipi di rivestimento del catalogo SCILM.

I nuovi accessori sono stati concepiti con linee squadrate ed essenziali, ideali per abbinarsi con il design attuale dell'ambiente cucina, e presentano la particolarità di essere dotati di rivestimento bifacciale così da poter essere utilizzati indifferentemente in angoli interni o esterni.

### PVC PLINTH

The new plinth 4600 is obtained by extrusion of a thermoplastic self-extinguishing compound, showing a half-hidden gasket.

Supplied in different heights, the new plinth can be foiled with all papers and aluminium foils actually availables on Scilm papers catalogue.

The new accessories, with small external radius, have been designed considering the actual tendency of the kitchens market.

More, the accessories are foiled internally and externally, becoming of immediate use both for angles or corners.
